

TRANSFORMING CHALLENGING RELATIONSHIPS

...SO THEY WORK FOR YOU!

19th October 2017 16:30 – 19:30

A Women in Rail West Midlands Event
and launch of
HS2 Gender Balance Network

With so much focus on needing to deliver against demanding workloads and schedules, having great working relationships and a strong network can substantially and positively impact effectiveness – including the time and effort it takes to get something done.

To optimize our own performance, we need to be adept at managing working relationships, so that they work for us.

During this workshop, we will explore strategies for dealing with difficult relationships, identifying the most and least effective methods.

Speakers
